

**LinkedIn is a
great
introduction.**

**It's simple and handy to share.
But missing key things..**

It's **generic.**

It gets you found, but it's not designed for your personal brand.

- No premium design
- No rich & growing content
- Not built to convert
- Not built for bookings
- Not proactive with an AI team

Your personal brand deserves **its own home.**

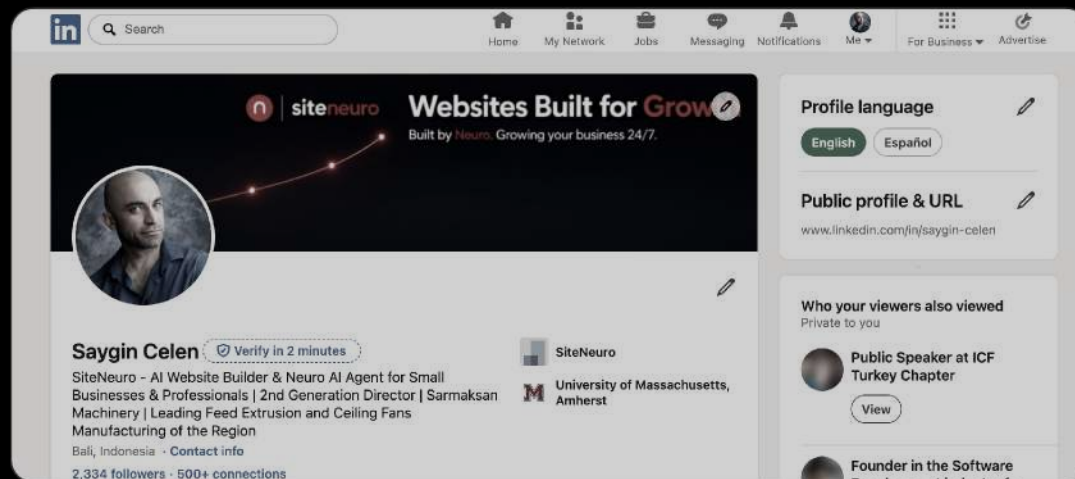

60 seconds. From your LinkedIn.

That's why we built **Neuro.**

The AI team that builds your **proactive site**
from your LinkedIn data — in 60 seconds.

Your site goes live instantly.

From profile to **presence.**

BEFORE — LINKEDIN

Gets you found.

- Limited design & conversion value
- Generic, shared template

↓ Takes a minute to go live — **today.**

AFTER — YOUR NEURO SITE

Found — and built to win.

- Google & AI search
- Rich & engaging content
- Conversion focused
- Neuro chat active 24/7 capturing leads & making bookings

The instant upgrade for your online brand.
